## TREE STEWARDSHIP SEMINAR

Sam Bishop, Trees New York's Arborist will provide an overview on how to properly care for street trees while they are dormant give you some tree stewardship tips to make sure your street trees have a strong start in the spring.

Tuesday, March 12th  
6 pm - 8 pm

Meeting Location:  
126 East 95th St.  
(between Lex. and Park Ave.)  
Please use main entrance  
New York, NY

Overview: winter tree identification, stewardship and learning how to use the NYC Street Tree Map.

Join us and connect with other tree care enthusiasts and Citizen Pruners.

### DID YOU KNOW?

A mature tree removes almost 70 times more pollution than a newly planted tree.

A young healthy tree provides the same cooling effect of 10 air conditioners operating 20 hours a day for an entire year.
